

---

The following updates have been made to DealSheet

**Version :** 2.11

**Updated:**

1. Bug fix to support some users who have reported issues when using DealSheet with process builder.

**Upgrade package link**

<https://login.salesforce.com/packaging/installPackage.apexp?p0=04t0I0000001206o>

**Notes for upgrade process:**

The following process should be used to complete the upgrade

1. Use the link to update the package for Admins only. No post- upgrade activity is needed and users will not notice any differences.
